

Dear Reader,

This issue of the CesR newsletter is dedicated to one interesting experience of a tourism business, and to four other events that took place in partner countries during the last number of months.

Two are project events: the study visits of CesR partners to Olomouc Region (Czech Republic) and to Latvia. The other two events are thematic: CorkMEET 2013 is a business gathering organized in Cork (Ireland). The VENKOV conference is a national event organized in Czech Republic and dedicated to rural development.

The business example that the CesR partners would like to share with you is the Biebrza Eco-Travel company in Poland, showing how to integrate local entrepreneurs and community around tourist services in rural areas.

If you are interested in more details about these topics, please don't hesitate to visit our website:
