

Dear Reader,

This issue of the CesR newsletter is the last one, as the project is concluding at the end of 2014. During the last three years all eight CesR partners have been delighted to share the project's achievements. We are now very happy to give you, in the articles below, an insight of the final conference of the project organized during the EU Open Days in October, and to announce the availability, in seven languages, of a Recommendations Handbook gathering all main project results. In this document you will find many interesting initiatives, like for example the Haven Cooperative created in Malopolska Region in Poland and detailed in the third article of this newsletter.

If you are interested in more details about these topics, please don't hesitate to visit our website:

### CesR Handbook available for download in 8 languages!

First published in English and distributed during the final conference of the CesR project, the Recommendations Handbook created by all CesR partners is now available in the 8 languages of the project: English, French, Czech, Polish, Greek, Spanish, Latvian and Slovene.

You can download it here in PDF format.
